

WORRY FREE PROCESS CLEANING FOR
BREWERIES

SWEETWATER
INNOVATIVE
SOLUTIONS

We understand the need to clean.

We provide the cleaners and sanitizers, solutions, and service you need to keep your brewery running smoothly at all times. Essentially, we'll keep your equipment clean and facility safe, so that you can focus on brewing your best beer.

Whatever your brewery needs, SIS has your solutions.

We offer our partners:

- ✓ Custom cleaning processes
- ✓ Ongoing performance monitoring
- ✓ Industry-based product recommendations
- ✓ Employee safety training

We serve all industries, but we're especially passionate about helping breweries.

With your custom cleaning process and specialized solutions, your brewery will be safer, more efficient, and more productive than ever before. If you have questions, we'll be here to answer them. If you run into a problem, we'll be here to solve it. We're your dedicated process cleaning experts, so that you don't have to be.

We know what it takes to brew your best beer.

Our brewery partners receive access to an assortment of cleaners and sanitizers that keep yeast and bacteria at bay.

Process-Protecting Products:

CIP PRODUCTS

- 1 Causti-Clean**
A heavy duty caustic cleaner used to prevent water hardness and beer stone deposits from forming.
- 2 Acid CIP**
A circulation cleaner specially-formulated to dissolve beer stone, milkstone, and a variety of inorganic deposits.

FOAMING CLEANERS

- 3 Klor-Foam NP**
A chlorinated alkaline cleaner designed to remove greasy, oily, and proteinaceous soils from the surface of your equipment.
- 4 Acid-Foam**
A high-foaming detergent that leaves the surface of your equipment bright and shiny.

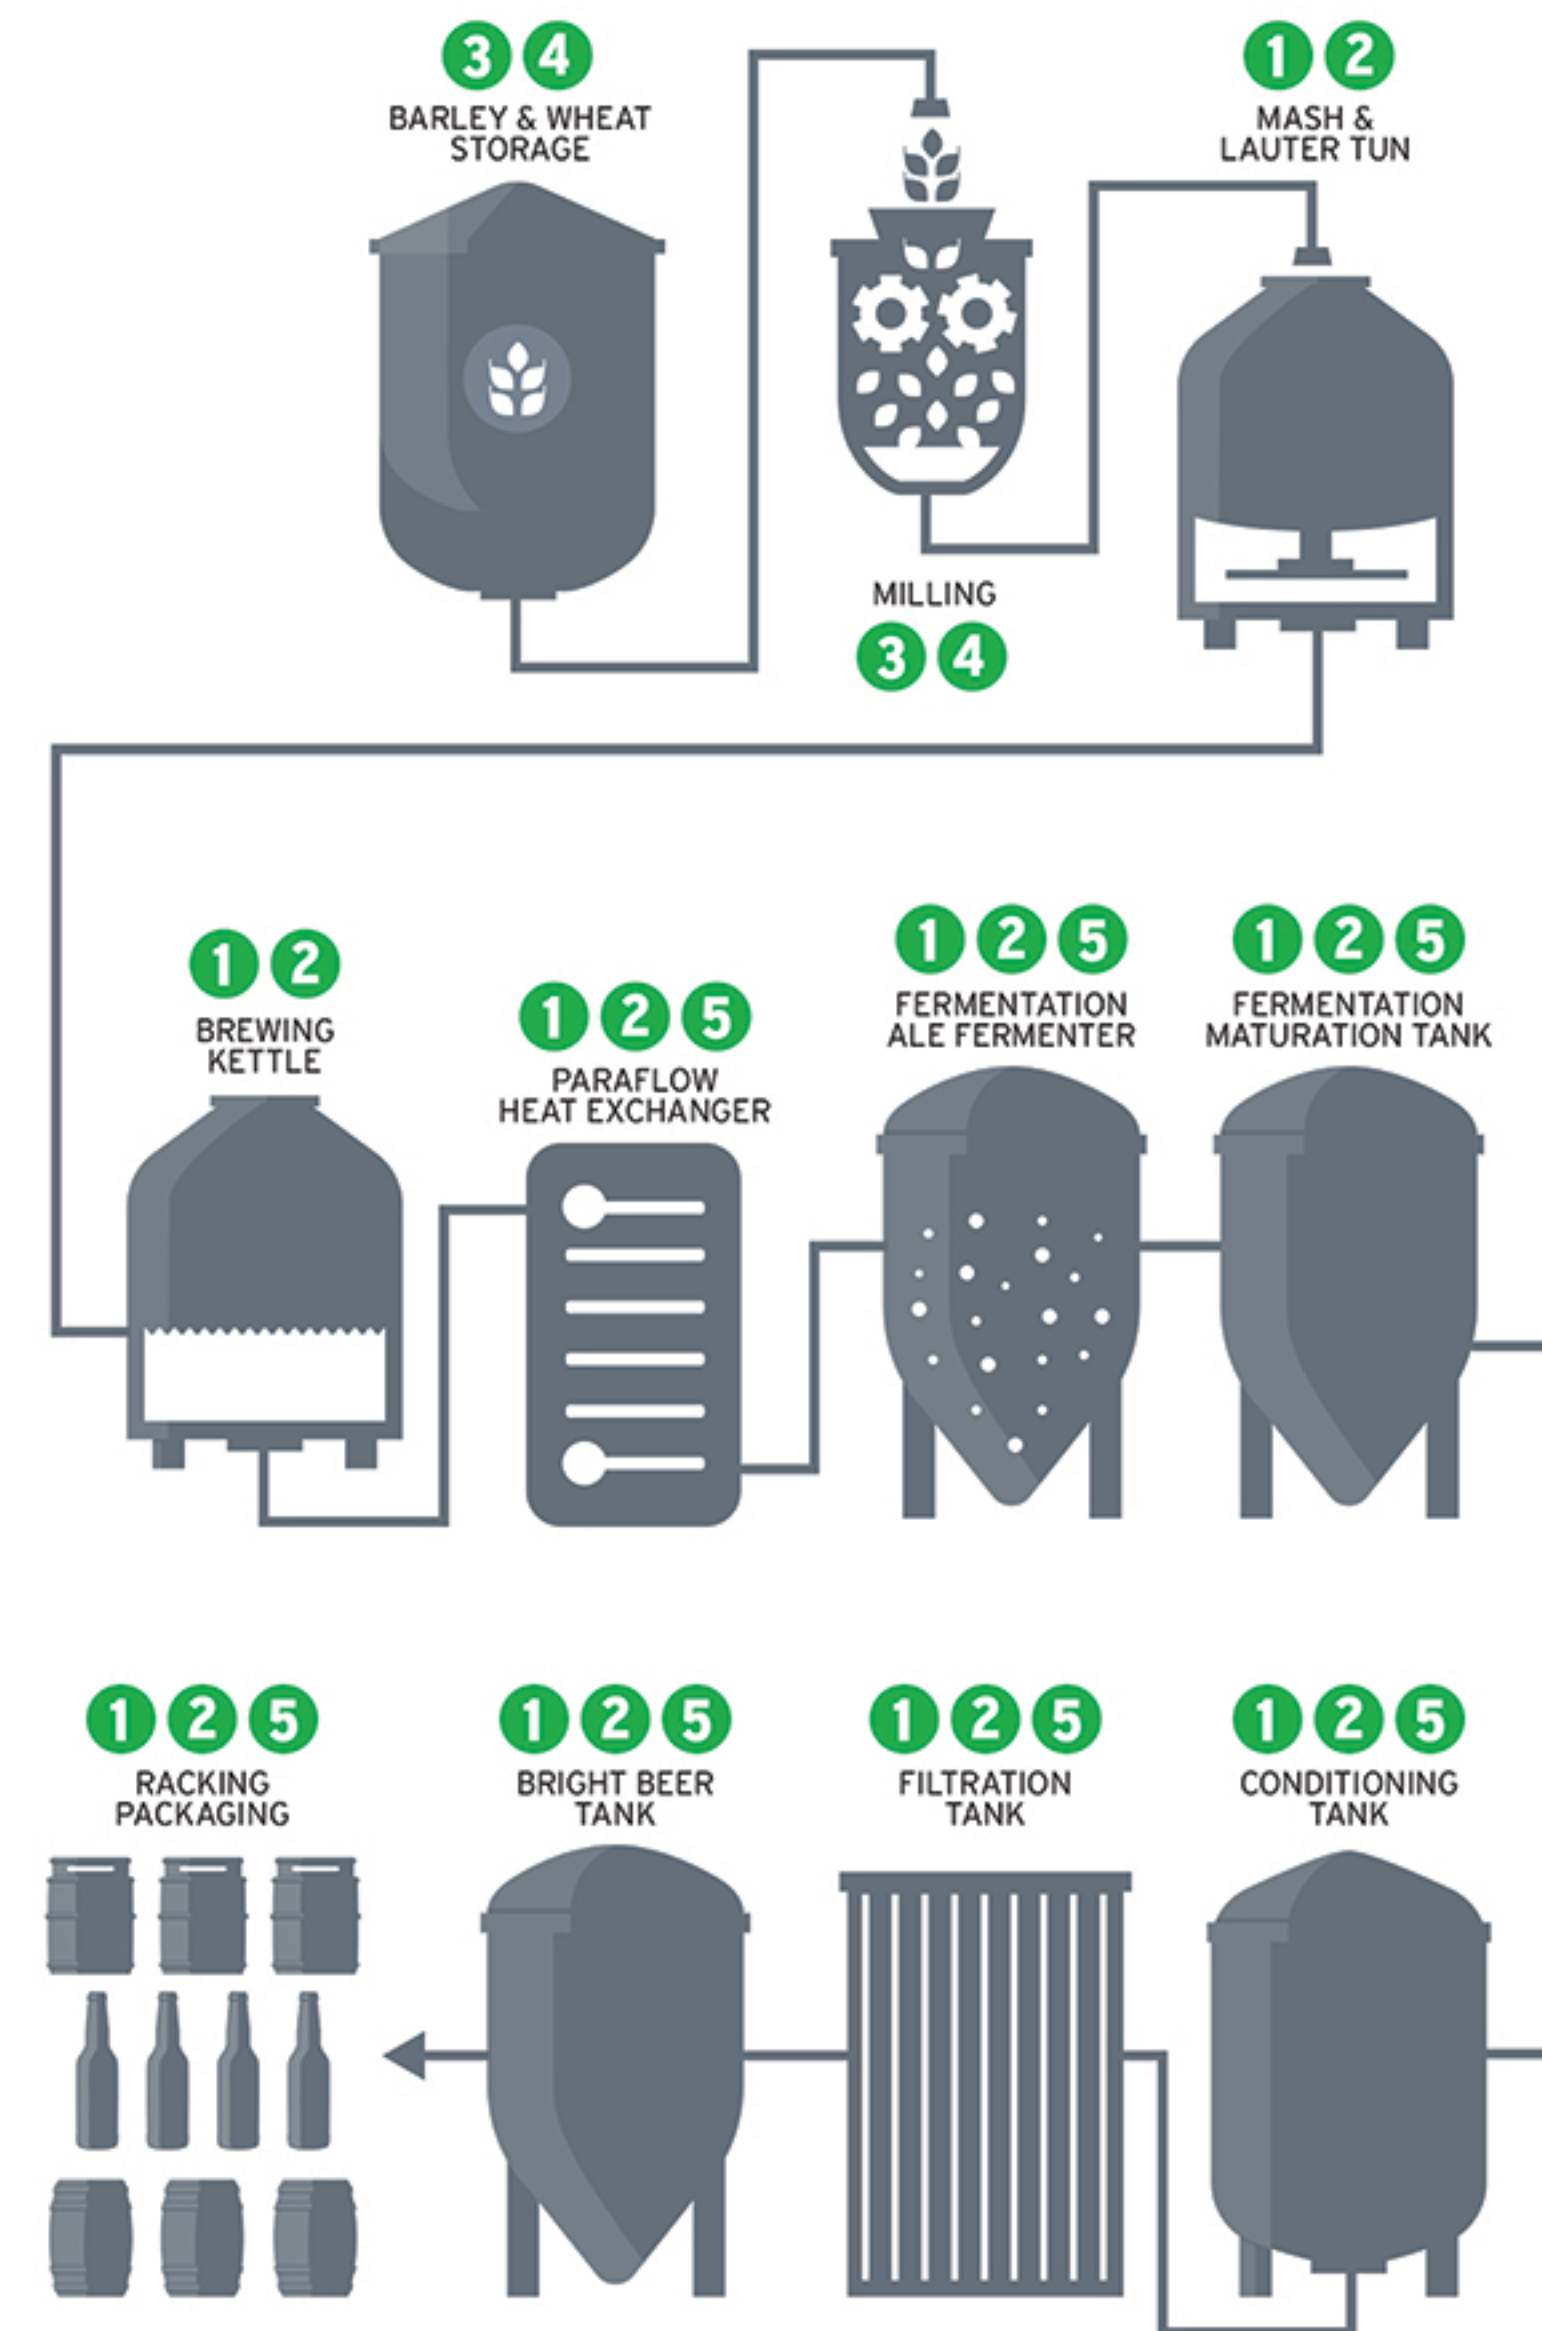

SANITIZERS

- 5 Peracetic Acid Sanitizer**
An EPA-registered sanitizer perfect for preventing the formation of bacteria, yeast, and mold in pipes and tanks.
- 6 Iodine Sanitizer**
An EPA-registered sanitizer perfect for circulation through tanks and lines, as well as on food contact surfaces and equipment.

SPECIALTY PRODUCTS

- 7 NCP Kettle Wash**
A specially-blended, softer alternative to heavy caustic circulation cleaners.
- 8 Oxy Boost**
An oxidizing additive to improve the cleaning performance of alkaline and acid cleaners, effective at aiding in the removal of proteinaceous soils.

Products used during the cleaning process:

How we work.

Monitoring performance.
Improving efficiency. Decreasing downtime.

— Your Partner —

Continual communication allows us to be proactive
in keeping you running efficiently 24/7

ABOUT SIS

We understand the importance of protecting all aspects of your brand, including the cleanliness and efficiency of your facility. As your process cleaning chemical partner, we work with your team to provide custom cleaning solutions and products to ensure your facility is always running at peak performance.

Your beer is your number one priority. Your brewery is ours.
